

A photograph of a formal dining room. In the center is a large, dark wood rectangular table set for a meal with white plates, glasses, and silverware. Several white upholstered chairs with dark wood frames are arranged around the table. A large, ornate chandelier hangs from the ceiling. Large windows with dark frames and light-colored curtains are in the background. The room has a classic, elegant feel.

CARE / MAINTENANCE

Our wood-grain finishes are resistant to abrasion, humidity, weather, light, corrosion and most importantly, they are fire-retardant, as opposed to real wood, or resin.

DuraCare chairs are highly resistant to nicks and scratches. In cases where touchups are needed, we offer special kits, made to match any of our 13 wood grain colors, that can be easily applied to the frame. In the event that this application does not prove satisfactory to the customer, the chair will be replaced.

For routine cleaning, dust the wood grain with a microfiber cloth. Microfiber cloth will delicately wipe the wood grain and the knit construction of the cloth is designed to pick up dust and oils without leaving lint behind.

For a more intensive cleaning, you can pretty much use anything on the wood-grain to clean it. Pledge, wax, sealant, or even soap, and water will work perfectly. This is another reason why wood-grain furniture has become very popular.

SPECS AND ADDED FEATURES

Our entire line of products are manufactured with high pressured die-cast aluminum, without noticable welding points, due to our cutting edge, and innovative welding process, that is unparalleled in the chair industry. We can guarantee that as there are no screws, or hinged brackets used in the construction of our frames, our frames will not wobble or shake after any amount of time, as opposed to wood and resin arm chairs, which will begin to wobble after a short period of time.

All of our aluminum wood-grain frames, while very strong, using an industry first, 14 gauge tubing, are also lighter, and easier for residents and staff to move around than other types of seating.

All of the DuraCare Seating wood-grain chairs have been tested to hold a weight capacity of 350 lbs and our Bariatric models have been tested up to 500 lbs.
